

Local Food Connection Proud Partner

Our Home Place Meats - The Berry Center

ABOUT

The Berry Center established Our Home Place Meat in 2017 to develop a cooperative for small to midsize livestock farmers to sell local meat to regional markets. Beginning in our Home Place – Henry County, Kentucky – they are building a healthy food and farm model that can be replicated in communities throughout the country.

Our Home Place Meat is guided by these values:

- Fair compensation for farmers.
- High animal welfare standards.
- Good farming and land management practices.
- Neighborly, cooperative relationships.

LOCATION

New Castle, KY

PRACTICES

OHPM calves are raised 100% on pasture, free to roam, with unlimited access to mother's milk alongside the herd. Through farm visits and affidavits, OHPM guarantees their meat is milk fed, grass fed with no antibiotics, steroids or hormones ever, and their animals lead a healthy, happy life.

PRODUCTS

OHPM's custom USDA butcher will cut to order or you can select Rose Veal from standard inventory cuts including roast, briskets, chip, ground, whole tenderloins and rib racks.
