The Egg Shack

ABOUT

Kentucky Farm Fresh, also known as The Egg Shack, is a group of small Amish farmers in southwestern Kentucky that started in the summer of 2014 with just a small backyard flock. Their chickens are out on pasture every day getting grass, bugs, fresh air, and sunshine.

This makes for the best quality egg available – dark orange yolks, healthy strong whites, as well as high quality fats and excellent nutrition in each one. The chickens are also given non-GMO seeds, extra vitamins, and minerals.

LOCATION

Herndon, KY
